(2026), A Timeline Chronology of The Green Economics Institute, 22nd Annual Green Economics Institute Conference Proceedings. 22nd Annual Green Economics Institute Oxford Conference, 31 July–1 August 2026, held at the Blavatnik School of Government, University of Oxford. Published by the Green Economics Institute and GEIBooks.org.uk. Reading, UK: Green Economics Institute.

A Warm Welcome from the Editor

My name is Raghu Datt, and I am delighted to be the Editor of the 22nd Annual Green Economics Institute Oxford Conference Proceedings. The Conference will take place at the Blavatnik School of Government, part of Oxford University and the lovely ancient Friends Meeting House with its gorgeous walled flower garden in a sizzling week in July during the current extraordinary heatwave hitting much of the northern hemisphere of the world. It has never been more fitting to have a conference debating and planning a change in the philosophy of the future and searching to use new paradigms to alter the mess that humans appear to have made over the last 10,000 years!

We will explore the 6 mass extinction of species and our keynote speakers will talk about the Rights of Nature Bill, the new demographic shifts, what the future looks like now Gen Z is coming of age and out in the job market as well as the challenges of climate change, the destruction of oceans, wildlife, whole economies and the world order which was ostensibly based on the rule of law, as well as the role of corporations past present and future. And so much more, our diets, agriculture and morality.

This summer with the Green Economics Institute, I have had the wonderful opportunity to contribute to the organisation of this conference and to the production of this programme booklet and to meet other young people with similar ideas and aspirations. The booklet allows to learn more about the diverse experiences and ideas of the speakers taking part, whilst helping to bring their contributions together in one place.

My academic interests lie in sustainability, development economics and the ways economic systems can respond more effectively to social and environmental challenges. I am looking forward to meeting you all at the conference and seeing more of you over the summer this year.

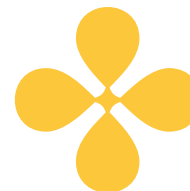

This lovely event brings together different generations and perspectives to discuss the future of economics and sustainability. I hope this booklet helps you navigate and enjoy the conference, and that the conversations held here encourage reflection, collaboration and meaningful action to share together in making the world a better place and giving us the hope, inspiration and innovation to go and implement our ideas in our lives and futures around the world. I look forward to it with excitement and so does the whole conference team.

Have a lovely conference and we look forward to your continuing involvement in our lovely institute over the months and years to come. Thank you so much for coming and for your wonderful support.

Kind regards,

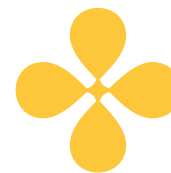

Raghu Datt

The Institute has an official delegation to the United Nations SB50 Conference at the United Nations Climate HQ in Bonn and has an official side event where Dorothy Nulembega from Uganda speaks and an official exhibition stand which proves very popular.	2019
The Institute has a delegation to COP25 in Madrid Spain in December 2019 The institutes ideas for pressing for increased ambition takes off at this conference and ambition features strongly in the following Madrid COP25 of that year. The new theme is our house is on fire, which is unfortunately proved to be true as Australia starts to experience catastrophic fire climate emergencies in 2019. As well as a moving session with Greta Thunberg in the main plenary with Mary Robinson. It also has an official side event and an official exhibition and is awarded a delegation of 42 people officially. It partners for the first time with the Pan African Meteorology Association, Amazon for the Amazonas and Bank National de Paris and The Freie University of Berlin.	2019
We participate in a live space link up at COP25 United Nations Climate Conference in Madrid	2019

Climate change moves to a new more dangerous era- with half of Australia under threat of catastrophe but its government still banning climate change as a reason! The atmosphere increases to 412 part per million CO2 and a condition not seen for 3 million years when the sea level was 125 metres higher, and the world was much warmer. Health Effects start to matter to people The ice sheets are melting very fast, diseases such as meningitis start to take hold in Africa, and malaria as expected starts to increase. Heart attacks continue in Africa, and pollution is now proven to be killing people everywhere in vast numbers, plastics are now found in every part of the planet and in most species stomachs, and almost all sea life. Many cities are becoming dangerous and intollerable due to the pollution and in 2019 the carbon output of humans actually increases. We have reached 37.1 gigatonnes of carbon per year- an average output per human of 4.9 tonnes of carbon and the remaining carbon budget for keeping below 1.5 degrees of warming is now very slim at 8 years left- see our website -geiclimate.org Still more and more oppressive regimes are either being elected or coming to power anyway. Democracy is being fast eroded and the fossil fuel lobby is using its muscle to keep the world pinned to oil, gas, coal and nuclear rather than the fast switch to renewables we need urgently. For the first time the COP conference was unable to move forward as the new slogans -<i>climate emergency</i> and <i>our house is on fire by ordinary people</i> is suppressed in favour of business as usual by a media controlled by vested interests in fossil fuels who are over represented at the COP climate talks at the United Nations.	2019
We attend the Green European Foundation Assembly in Brussels the week before the pandemic lock downs start	2020
We run in house trainings for all our trustees with our professional charity training partners	2020
We instigate our weekly Monday evening team meetings every Monday throughout the year on line	2020
We move the monthly trustee meetings to on line every month and everyone enjoys them more so we decide to keep doing this. Trustees also attend the weekly team meetings on line as often as possible making our team much stronger	2020

We run our best ever 15th annual Green Economics Institute Conference Event with nearly 1000 people signed up to attend Survival Solutions -June 2020 Survival Solutions Conference 24th -26th July 2020	2020
We begin our series of Voices from the Future members events which are very popular	2020
We publish books -Oekonomie of the Future by Volker Heinemann,(UK and Germany) and Survival Solutions edited by Sukriti Anand, (India and Spain) as well as books such as Ecosystems Services, and The Circular Economy and Waste by Professor Dzintra Astaja (Latvia), Ecosystems by Jeremy Seabrook and Financialisation by Professor Maria Madi (Brazil)	2020
We run an active student programme this year As we continue to run excellent and up to the minute websites and web presences -we launch our Green Economics Institute Education Website and relaunch our instagram and vimeo accounts with lively content and expand the teams running them. www.greeneconomicaleducation.org website is very popular as a platform for running our education activities. We run many events this year but moved them all on line for the pandemic including our 16th Annual Green Economics Institute Conference but move it on line due to the pandemic	2020
We continue to run most of our events on line except our United Nations Conference Delegation which we run in person. Our Founding director joins the Allumni Committee of Mansfield College, University of Oxford and we take start a programme of taking students to our United Nations and Climate Delegations which is very well received and continues with students becoming very active in our charity and institute Climate Feminist Summer School 20th -22nd August 2021 Climate Feminist Summer School Summer University, Online Event August 20th – 22nd, 2021 GEF-21-02 Feminists in the Climate Movement Gender and Feminism Green Economics Institute Introduction: Diverse decision-making and womens empowerment	2021
We work on ‘Mining for Minerals-Can it ever be really Green?’ Project with our partners - The Green European Foundation and many others – the project extends over several years and results in a publication and several interesting conferences.	2021

We run our official United Nations COP26 climate conference delegation which is very lively in Glasgow where we are very active with 2 delegations and 100 people involved running 3 sets of exhibition stands and a virtual conference exhibition stand and partner exhibition stands in the Green Hub as well as in the main conference centre and many events most of which are completely sold out with leading international speakers and academics which are very well received. Our 17th Annual Green Economics Institute Conference is on line due to the pandemic	2021
In 2021 we work on the climate feminist ambassadors programme	2021
We lose one of our founders -Volker Heinemann in sad circumstances and out of respect we cancel our 18th annual green economics institute conference for 2022 whilst we reorganise and reappraise and take a year to reflect only beginning to hold events again a year later at the United Nations in Egypt November 2022. Marlyn Lee steps in to become Director whilst we work on the necessary administration of the situation.	Nov 2021
November 2022 -We run an excellent official United Nations Exhibition Stand at the United Nations COP27 Sharm El Sheikh Egypt Climate Conference with a new enhanced team of our speakers and managers taking our teams to new levels.	2022
We speak in the parliament in Lithuania We run exhibitions stand in many countries including in Latvia -and Egypt with lively new teams as we start to grow again rapidly.	2022
We run exhibitions stand in many countries including in Latvia –	
We speak for SEED organisation of leading women -run by Lynne Franks	2022
We participate for the first time in the UN climate financial strategy meetings	2022
We send more delegations to the UN than ever before- IPBES biodiversity teams and we join with partners for the UN biodiversity conference in Montreal in September 2023 and 2 climate teams- one to Bonn in June and one large one to COP27 in November.	2022

We expand our trustees to nearly 20 and we resume our regular weekly meetings on line and we restart our in person events and meetings after the pandemic lock downs. We run a strategy team meeting in Oxford in person for the 1st time since the pandemic getting ready for our 20th anniversary in 2024 We join the alumni part of the development committee of Mansfield College, University of Oxford	2023
We run an official United Nations Side Event in Bonn, Germany at the Climate Conference for the Global Stocktake- during the UN climate conference SB58 June 2023 with 5 partner organisations. Including Terre -India, Global Greens, University of Strathclyde and The Ukraine Law Peace Institute looking at the environmental cost of war activity.	2023
United Nations Delegation to Bonn, Germany SB58 June 2023	2023
Exhibition stand in South Korea June 2023	
19th Annual Green Economics Institute Conference at Earth Spirit Education Centre, Somerset Uk June 2023	2023
We run a large and very successful Official United Nations- side event in The United Arab Emirates in November December 2023 COP28	2023
Official United Nations- official research delegation in The United Arab Emirates in November December 2023 COP28	
Official Exhibition Stand -at the United Nations- Exhibition stand in The United Arab Emirates in November December 2023 COP28	
IPBES Biodiversity Conference United Nations official Delegation to Bonn, Germany UN HQ August- September 2023	2023
We sent a delegation to Khazakstan for COP29 – the UNFCCC United Nations Climate Conference. This also included an official side event with partners and also a 2 week exhibition stand with partners.	2024
Our academic journal, one of the worlds first and leading green journals-founded by Miriam Kennet, The International Journal of Green Economics has now been running for 18 years. It suddenly gets accreditation with many leading academic registries including Scopus and becomes a leading academic journal with a 3 year waiting list for papers to be published	2024

Our 20th Anniversary celebrations and our 20th Annual Green Economics Institute Conference took place at the Crowne Plaza Hotel, Reading on the banks of the River Thames on June 15th 16th 2024	2024
Our 20th Anniversary celebrations and our 20th Annual Green Economics Institute Conference took place also were celebrated with a major event at the House of Lords, Westminster, London on October 31st 2024. This was a wonderful speaker event with 19 speakers hosted by Baroness Natalie Bennett	2024
We held a 1 day team building event on line in January 2025 We had 5 United Nations Delegations in 2025 One to Madrid- Financing for Development, 1 to COP30 in Belem Brazil, where there was a fire but we ran an official side event, and exhibition stand. We had a delegation and side event at Bonn SB62 UNFCCC HQ. We revised our chapter in the book Handbook on Social Justice edited by Professor Gary Craig. United Nations Delegation to Bonn, SB62 and an official side event with partners. Our academic journal <i>The International Journal of Green Economics</i> , gets full Scopus academic accreditation and takes off with 400 papers being submitted and more every day.	2025
We held a team building event in London in January 2026. Our student programme really took off with 130 volunteers registered. Our academic journal has 400 papers waiting for review Our websites hit rate was over 400,000 a month. We ran an official United Nations Delegation to IPBES 12 Nature and Ecosystems in Manchester in February. We took part in the Green European Academy in Brussels. We run an academic conference at Blavatnik School of Government in July/ August. We run a summer school August 24-28 th 2026 at the HB Allen Centre, part of Keble College, University of Oxford in collaboration and accredited by the Berlin Hochschule. We will run a delegation to COP31 in Anatolia Turkey on climate change and one to Armenia Yerevan on Nature and Biodiversity Cop17.	2026
